

STRIP System

Lead Frame Strip Test Handler

Applicable Packages — SOP — SSOP — TSSOP

4380-IH

4380-IH is Lead Frame Strip Test handler for SO family package. Devices are tested before singulation (punch out) in lead frame. Compared to conventional handler such as gravity type, this strip solution has many aspects of advantages such as more output, low jam rate and high yield. Ambient / Hot temperature mode is available.
