Call for papers (ver.1.0)

As we did in the past, we want to prepare this ITWS with keynote presentation as well as paper sessions and a panel discussion.
We would be very pleased if you take an active part in our ITWS 2026.
We will also have several poster sessions in the hotel foyer during the breaks.

Here you find a guideline on the conditions your paper and/or poster should fulfill:

General:
- Your paper and/or poster should correspond with one or some of the items as listed hereafter in "Table of contents".
- It shall *NOT* contain sales aspects / NOT a general company presentation and all their products
- Please show solutions (a problem solving approach) if possible, and/or encourage the auditors to discuss a subject.
- ***Please note***: your material will get public at least to all participants of this Workshop!
- Don't forget to provide a short *"speaker's introduction"*, as well as add a picture of yourself - which will be used in the agenda (on our website). Additionally, some important milestones of your professional life are interesting to inform the auditors at the beginning of your speech – there is no need for a full bio.

Timeline (for presentation sessions):
- Your presentation should take about 20 minutes.
- Another max. 10 minutes are provided right after your presentation for incoming questions from the auditors.

Format of papers:
- Please provide the material in MS- PowerPoint ("ppt" or "pptx") format.
- ***Optionally you can use our ITWS 2026 template for MS- PowerPoint***

Please let us know your intentions on giving a speech *as soon as possible.*

Please submit your abstract to info@is-test.com until <ins>***April 15***</ins>.
